KeTop T135

KeTop T135
with Automation keyboard

The mobile 7” web visualization for all controls can be equipped with up to three operating elements.

The KeTop T135 is equipped with a 7” multitouch screen and, thanks to a browser for all modern visualization tasks, as well as, thanks to an Ethernet connection, it can be used with any control system. The T135 impresses with the best ergonomics, compactness and is a real lightweight. The back-mounted keyboard also allows for practical one-handed operation. Discover the many configuration options thanks to the wide range of optional control elements.

Choose your KeTop Basic model
