KeTop T135

The mobile 7" web visualization for all controls

The mobile 7" web visualization for all controls can be equipped with up to three operator controls.

The KeTop T135 is equipped with a 7" multitouch screen and, thanks to the browser, can be used for all modern visualization tasks and due to the Ethernet connection, with any control system. The T135 impresses with the best ergonomics, compactness and is a real lightweight. The keyboard on the back also allows practical one-handed operation. Discover the wide range of configuration possibilities thanks to the large selection of optional control elements.

The KeTop T135 is delivered with Linux as operating system as standard.

What do all KeTop T135 models with Linux Debian incl. Device Access Interface include as a standard?

- // 7" TFT WSVGA display, 1024 x 600 pixels
- // PCT projected capacitive touchscreen
- // CPU ARM Cortex A53 Quad Single Core 1.6GHz
- // Memory 4 GB RAM, 8 GB Flash

Choose your KeTop Basic model
